This one-day symposium will feature information and sessions on:

- the application of social media in health and health care
- the use of “apps” to enhance the health of citizens of NC and/or the practice of health professionals
- the impact of environment on health and health care
- healthcare reform after the 2012 election
- community/campus partnerships as a vehicle to reduce health disparities

**Audience**
The Symposium is open to allied health and public health providers, community residents and lenders, nurses, dentists and oral health providers, physicians, other health care providers, faith-based organizations, ECU faculty/staff/students, and the general public.

**Continuing Education Units (CEUs)**
East Carolina University’s Office of Continuing Studies will issue up to 0.6 CEUs (6 contact hours) for all those requesting them. The cost of CEUs is $5 payable on the day of the event.

**Additional Information**
For more information or to register, visit www.ecu.edu/dcs/mills.cfm or call (252) 328-9198/(800) 767-9111.
Schedule of Events

8:30 am  Registration check-in begins  Atrium
Posters and displays

9:00 am  Welcome  Auditorium
Dr. Stephen Thomas, Dean, ECU College of Allied Health Sciences

The Future of Rural Minority Health: Challenges and Opportunities
Janice C. Probst, MS, PhD is a Professor in the Department of Health Services Policy and Management, Arnold School of Public Health, University of South Carolina. She leads the federally-funded South Carolina Rural Health Research Center. Probst has extensive experience in health services research, with an emphasis on rural and vulnerable populations. She has more than 90 papers in the peer reviewed literature. Dr. Probst received the 2008 National Rural Health Association “outstanding researcher” award for her work in rural minority health. Her contributions were recognized in 2013 at the University of South Carolina’s Martin Luther King, Jr. Day, with the Social Justice Award for Faculty.

Reaching the Underserved and Improving Healthcare Outcomes with mHealth Technology
Bambang Parmanto, PhD is a Professor of Health Information Management, Biomedical Informatics, and Clinical Translational Science at the University of Pittsburgh. His research has been in the areas of telehealth, mobile health (mHealth), persuasive technologies, and data mining. He leads the development of many telehealth systems at the Rehabilitation Engineering Research Center (RERC) on Telerehabilitation, including an interactive telehab system called VISYTER, a novel mHealth for enhanced wellness called iMHere, and a smartphone-based mental health intervention called smartCAT. He is the recipient of the 2010 American Health Information Management Association (AHIMA)’s Triumph Research Award.
