

2011-11 Scientific Diving Training Schedule

In addition to online training requirements, this course meets in Minges Pool Fall Semester on Monday's from 10:00 to 12:00, Spring Semester on Monday's from 8:00 to 10:00, unless otherwise posted. It is required that you complete the online portion of a given training module prior to participation in the hands on portions of the training (confined and openwater). Each required pool session, with the exception of the zero visibility obstacle course, is offered during both Fall and Spring Semesters. It is acceptable for you to stretch your participation in pool training over both semesters, or you may choose to complete the classroom and pool portions of the training modules during either the fall or spring semester. **HOWEVER, YOU MUST COMPLETE A FULL CYCLE OF REQUIRED MODULES PRIOR TO PARTICIPATION IN OPENWATER TRAINING.** Module written examinations may be scheduled & taken at any time throughout the training cycle. **NOTE:** Some of the pool sessions are size limited due to equipment availability and individual sizing issues.
