Microsoft Onedrive -Ginny Sconiers Demo

pirate365.ecu.edu

Committee added to the Pilot. The software is in pilot mode and should not be used for sensitive data. Office 365 has a ProPlus subscription which includes downloading office to devices. You also receive access to Onedrive. Students already have all of this access. Onedrive offers a Terabyte of space. Documents can be shared with internal and external collaborators. It is a great way to share feedback with students.

We are waiting to hear back from the attorneys on contact language and to firm up data types that we recommend. We hope to go live by May.

- Proposed Standard Operating Procedures for Access To Blackboard – GROUP DISCUSSION

The document to Governance and they changed the title to a standard operating procedure. And they added another phrase.

Update on Blackboard Creasey - Also, there were two Blackboard issues recently. One was a dropping of enrollments in course enrollments which is a bug in the Blackboard Software. They will fix this issue in future updates. It is fixed at ECU. Also, there was some configuration with the system load balancer. These configurations caused some issues in Blackboard that have been resolved.

IRCC Review – Wendy Creasey

- The new Team Dynamix software was demonstrated at the IRCC. The software has a nice clean interface and will be used for Service Desk Management and Project Management.
• An IT Accessibility committee is being formed to help prioritize work in this area and to create an all-encompassing policy. The committee has cross campus representation.
• A presentation on the transition away from Exadata infrastructure.
• Security Training was approved by the Faculty Senate and will occur on a bi-annual basis.
