The purpose of these grants is to support new innovative and/or creative teaching approaches with aims to improve instruction at the University.

Eligibility for Teaching Grants
- Full time tenured, tenure-track, and fixed-term faculty members are eligible to apply for these grants. The Committee’s evaluation criteria are included below. To view previously funded proposals, please go to the Teaching Grants committee website (under the Faculty Senate website): http://www.ecu.edu/cs-acad/fsonline/tg/teachinggrants.cfm.
- Faculty who have submitted all reports for previously funded Teaching Grants projects
- Faculty who have had at least one academic year since last Teaching Grants award
- Faculty from Academic Affairs and Health Sciences are eligible to apply

Application Process
Each grant proposal consists of the following parts:
- Signature Form signed by the applicant and the Chairperson (or Dean, as appropriate) of any unit involved
- Proposal Review Package including
  - Title and Abstract
  - Narrative
  - Budget
  - Appendices
- Checklist

Submit two (2) signed, printed copies of the complete application including the original signature form, review package, and checklist to the Teaching Grants Committee, c/o Faculty Senate Office, 140 Rawl Annex, and one (1) electronic copy of the review packet in PDF format to facultysenate@ecu.edu by the deadline of 12:00 noon on Monday, November 6, 2017. There is a blind review of the proposals; therefore, the applicant's name should only appear on the (2) signed, printed signature forms and not appear anywhere in the electronic copy of the proposal review packet.

NO PROPOSALS WILL BE ACCEPTED AFTER THIS DEADLINE.

Completing the Application (p. 4)
Items 1-10 must be completed and submitted together. For your convenience, there is a checklist of the required items included in these materials (p. 6). Grant applicants are asked to attach the proposal cover sheet and checklist only to the two signed print copies of the proposal. The electronic PDF copy should not include a cover sheet, signed application or checklist, to ensure anonymity.

Item 1: Completed Teaching Grant Proposal Signature Form
All fields of the proposal form must be completed. The submitted copies of the signature form must include signatures of the applicant and the unit head.

Item 2: Proposal Review Packet
Because your proposal will be read by people from many disciplines, it should be clear and free of specialized terms, jargon or technical language. The electronic PDF copy will be used for review; therefore, to ensure anonymity, the electronic copy should not include the signed application form or checklist.
(a) Proposal Title and Abstract (page 1)
Abstract should be between 100 and 200 words, must use non-technical language, and indicate course number and title.

(b) Proposal Narrative (pages 2-5)
The format of the proposal description must:
- Be no more than four 8 1/2 x 11" double-spaced pages with 1" margins on top, bottom, and both sides of each page. No proposal with a description over four pages in length will be considered.
- Use Microsoft Times New Roman 12-point type.
- The applicant must verify that the PDF file meets the formatting requirements.

Include each of the following sections in your Teaching Grant Proposal Narrative:

1. Purpose/Objective
The purpose of these grants is to support new innovative and/or creative instructional approaches with aims to improve teaching. Give specific objectives and student learning outcomes.

2. Project Description (Approach/Method/Procedure)

3. Need and Impact
The need and impact section should show the percentage of each relevant course that will be impacted, the level of the course, the normal size of the course, and how often the course will be taught. The course must have already been approved by all relevant committees. Applicants should seek Institutional Review Board (IRB) approval, if required (http://www.ecu.edu/irb). Make it obvious how the project will affect the applicant’s teaching and student learning outcomes.

4. Schedule of Activities and Their Proposed Deadlines for the weeks of summer session
1. Please provide a brief rationale as to why the proposed project requires summer stipend (if applicable) or why the project cannot be accomplished during the regular semester. A summer stipend may be shared among more than one applicant on one proposal. Proposals with more than one applicant must specify the unique contribution of each applicant.

5. Evaluation Plan
Part of your evaluation plan should include a short list of questions that will be submitted to the students in impacted classes, and peer evaluations. Make your evaluation plan clear. Be specific as to what you intend to do to determine the effectiveness of your end product.

Item 3: Budget
Complete the attached proposed budget (p. 5) for the Project Expense Grant. Summer stipend amount should NOT be included in the budget. Attach a separate page to the budget that justifies and explains each line item requested. Travel requests must be directly related to the proposed project. Requests to attend regularly-held professional meetings or conferences should be thoroughly explained and justified. The proposed travel items may not replace or supplement academic-unit travel funds. List other sources for funding. Be specific on budget items. List to whom tuition or honoraria are to be paid, who is traveling where, how, and when, and your source of price estimates. Student wages are not an allowable expense. If an item is not applicable, please indicate by N/A.

Item 4: Appendices
The appendices must include the following items. Additional supporting materials and appendices are discouraged.
(a) Bibliography (works cited) for the proposal.
(b) List courses you teach and your scholarly interests that are relevant to this proposal. If you have release time or compensatory time applicable during the proposed project period, provide brief details.

(c) List all proposal titles and dates of grants previously funded by the Teaching Grants Committee, and include a brief synopsis of the outcomes and impact of that funding (maximum of 150 words).

(d) If applicable, indicate IRB approval or evidence of application to IRB

(e) If consultants are to be used in the Project Expense Grant, provide their credentials and your rationale for hiring them.

(f) If your project involves attending a workshop or seminar, attach a copy of the flyer or announcement. (These items must be discussed and justified in the proposal narrative.)

Item 5: Checklist
Attach this checklist to ensure that you have completed all the necessary items. The application process involves a blind review of the proposals; therefore, the applicant’s name should only be on the 2 original application forms, proposals, and checklists.

Completing Other Documents
Progress Report  Attached is a copy of the report that will be completed by the faculty member at the conclusion of the grant period. This is not to be included in the proposal packet submitted to the committee.

The grantee must submit a report of the results of the project to the Teaching Grants Committee c/o Faculty Senate Office, 140 Rawl Annex. Progress reports are due by September 15 of the next fiscal year. Progress reports from previous funded grants must be on file with the Committee before an additional application will be considered.

Evaluation: This page is an example of what criteria will be used by the Committee to evaluate the grant proposal.

A quality proposal includes
- Applications that are complete and meet all guidelines and formatting including font size, line spacing, page limits and margins.
- Proposals for course revisions that describe innovative and/or creative approaches that go beyond the usual course maintenance and normal workload expectations.
- Use of nontechnical or laymen’s language suitable for readers from all fields.
- A clear impact statement that describes how the teaching will be enhanced and learning outcomes improved (see evaluation for more details).

Examples of proposals that will not be considered for funding include
- Proposals for course revisions that should be expected as usual course maintenance.
- Proposals for course development that does not include innovative or creative approaches and/or falls within normal workload expectations.
- Proposals that are primarily research focused and/or have been submitted/funded in the same year by the Research/Creative Activities Grant committee.
- Proposals that develop a program handbook or recruitment materials.
