Re: Change of program status and name

The Department of Hospitality Management faculty recently voted to change the status of our program and its name from the Department of Hospitality Management to the **School of Hospitality Leadership**. The faculty was unanimous in support of changing the status of the program from a department to a school and then debated the new name and decided on the above.

I wholeheartedly endorse this change and ask that you support this effort as well. If you would write a letter of support and request a letter of support from the Provost and send the package of information to the Faculty Senate for action it would be appreciated.

Thank you and please do not hesitate to contact me if you have any questions.

I concur do not concur with the request to change the name of the Department of Hospitality Management to the School of Hospitality Leadership.

Marilyn Sheerer, Provost
