Subject: ONCO 7200

Good Afternoon!

The following new course number is available and has approval from the Office of the Registrar:

ONCO 7200 - Molecular & Cellular Biology of Cancer

The class has been entered into Banner with a "reserved" status, and is awaiting activation approval from the GCC and the GSAB.

Thank you, and please let us know if there is anything else we can do to assist you.

Marc Setliff
