PART 1: Student Information
Name: ________________________________
Banner ID: ____________________
Intended Date for Graduation: (Semester and Year) ________________
Major(s): ________________________________
Minor(s): ________________________________
Overall GPA at ECU: ________________
Total Honors Hours Completed: ________________________________

PART 2: Senior Honors Project Proposal Information and Narrative
Senior Honors Project Title: ________________________________

NOTE: The title of your senior honors project must fit tightly with the disciplines that you are studying.

Thesis Description:
In a cohesive and well-written document, please describe your planned research project. To achieve consistency across a wide range of disciplines, please use the headings below as your first-level headings. You may choose to add a second level of headings to focus your narrative. This proposal should be written with care and in consultation with your faculty mentor. While the length of the proposal narrative may vary considerably from one student to the next, a proposal less than three pages is likely to lack detail and rigor.

Paste these questions in a separate document and respond to each one. Use Calibri/Arial/Times New Roman font size 12 and double-space your work.

- **Introduction**: This section addresses the “why” of your research. This section should indicate why this study is valuable in the context of your field. In other words, what problem exists that you are investigating?
- **Background**: This section addresses the background for the reader. What is important to know about the study? Use literature to situate your study.
- **Purpose of the study**: This section addresses the “what” of your research. Summarize what your research will achieve.
- **Research question(s) or hypotheses**: Many empirical studies use research questions or hypotheses as a guide. *If this is appropriate for your research*, please clearly state these after sharing your purpose. *If this is not appropriate, then please state your guiding questions.* What questions are guiding your research?
- **Methodology**: This section will address the “how” of your research. What type of data will you use to achieve your study purpose? How will you access these data? What procedures will you follow?
- **Closure**: This section concludes your proposal by stating how this research will add value to your field and your career path. As you may recall, an oral presentation is a required component of your Senior Honors Project. Mention your initial thoughts regarding where you might present your research next year.
- **Timeline**: Please include your first and second semester timelines at the end of your proposal.

☐ I have read and agree with the student’s responses to these aforementioned requests.

PART 3: Timeline Template for Semester One and Semester Two

Note: This is a template for a research-based SHP using primary data collection. Please adapt this template for your project.

Please discuss with your faculty mentor the tasks that you will accomplish in the first course and list them below. The semester one timeline could include the following:

- Review of literature
- Significance of current study
- Refining your purpose
- IRB approval (if appropriate)
- Initial planning for your presentation

<table>
<thead>
<tr>
<th>Semester One</th>
<th>Goal(s) for the week</th>
<th>Broad goal</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Sample Week 1</strong>&lt;br&gt;Dates: 8/26-31</td>
<td>Read 5 articles, write abstracts for each</td>
<td>Working toward a review of literature</td>
</tr>
<tr>
<td>Week 1&lt;br&gt;Dates:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Week 2&lt;br&gt;Dates:</td>
<td></td>
<td></td>
</tr>

</tbody>
</table>
Please discuss with your faculty mentor the tasks that you will accomplish in the second course and list them below. The semester two timeline could include the following:

Note: This is a template for a research-based SHP using primary data collection. Please adapt this template for your project.

- Data collection techniques (training) and data management
- Analysis and Results
- Consideration of results/implications/recommendations
- Presentation preparation
- Submission of final document

**PART 4: Course Registration**

1. First, check to see if your major or minor discipline (the area that coordinates with your project’s topic) has an honors thesis class already established. For example, Neuroscience has NEUR 4950 (3 credit hours) and NEUR 4951 (3 credit hours). If the area has an honors thesis class already established, then register yourself for those courses during the appropriate honors registration window. Remember your senior honors project experience must equal a 6 credit hour experience over two semesters.

2. If you do not have a major or minor discipline thesis class established in the area that you are proposing for your Senior Honors Project, then we will create a section of HNRS 4500 (first course) and HNRS 4550 (second course) for you after you receive approval for your Senior Honors Project.

3. Now, please list the courses you plan to take and when you plan to take them:

First Course: ___________ Semester hours: ________ Semester: __________ Year: ________

Second Course: ___________ Semester hours: ________ Semester: __________ Year: ________

Revised on 10.19.2014
PART 5: Contractual Statements with Faculty Mentor Verification

Please read each statement, check each box and sign below.

☐ I understand that my Senior Honors Project must be an original project completed during my senior year.
☐ I understand that I must use MLA or APA format for my paper, and I need to discuss paper lengths, paper format, etc. with my faculty mentor.
☐ I understand that I need to discuss any IRB needs relative to my project with my faculty mentor. We will comply with all IRB requirements, if necessary.
☐ I understand that during my enrollment in my SHP courses, I am required to give two oral presentations on my project. One presentation is required at Research and Creative Achievement Week (RCAW) scheduled every spring, and one additional public presentation should occur. Public presentations may be during conferences, symposiums, workshops, senior shows or performances, etc.
☐ I understand that I must use the official Honors College poster template and Honors College PowerPoint template when delivering presentations on behalf of ECU’s Honors College and that I must submit the presentations to my faculty mentor at least two days prior to the presentation date for review.
☐ I understand that I must submit two items electronically five days prior to graduation: 1.) The Honors College’s Online Repository Template, and 2.) My final paper and the first page must follow the Honors College Senior Honors Project Title Page template.
☐ I understand that my final paper will be uploaded into ECU’s online repository, The Scholarship, database.
☐ I understand that I must submit two items electronically five days prior to graduation: 1.) The Honors College’s Online Repository Template, and 2.) My final paper and the first page must follow the Honors College Senior Honors Project Title Page template.

Faculty Mentor Signature and Date (implying consent for the project and willingness to advise for both courses)

PART 6: Faculty Mentor Information for the Credentialing Process

Required Section:
Faculty Mentor’s Full Name: _____________________________________________
Department: _______________________________________________________________ 
Phone: _____________________________________________________________________
Email address: ___________________________________________________________________
Faculty Mentor’s Department Chair: _____________________________________________
College: ___________________________________________________________________

Does the faculty mentor hold a terminal degree in a discipline directly related to the content being explored in this project? (Faculty mentor, please circle one)    YES  NO*  
*If no, please attach a brief description to satisfy standard alternate credentialing.

Note: The faculty mentor is required to hold a terminal degree in a discipline directly related to the content being explored in this senior honors project. If this is not the case the faculty mentor may provide as an attachment a brief description of alternate qualifications that would permit standard alternate credentialing for this project.

Optional Section: Complete only if you have a co-mentor.
Co-mentor’s Full Name: _____________________________________________
Department: _______________________________________________________________ 
Phone: _____________________________________________________________________

Faculty Mentor's Department Chair:______________________________________________________________
College:_____________________________________________________________________________________

Signature of Dean Marianna Walker                                        Date

Credential Approval: Signature of Dean Marianna Walker required after completion of HNRS 4000.
Your HNRS 4000 instructors will submit this section to Dean Marianna Walker.
