**Banner Student Records**

In this tutorial, you will learn how to access your student information, including your current curriculum, registration status, and transcripts.

Once you log into your ECU Pirate Port account, click on the Tools tab.

Look for the Banner Self Service text under the Applications heading and click on this link. This will open the Banner Self Service security window. Click continue to proceed.

This will open the Banner Self Service window.

Look for the Student text on this window and click this link.

This will open the Student main menu.

To view your student records, click on the Student Records link.

This will bring up your Student Records menu.

Click on the View Student Information link to view your general student record.

The General Student Record shows information such as term registration, student type, and curriculum information. To return to the menu, click the Return to Menu link.

From this menu, you can also view any holds that are on your account, check your final grades, view the course catalog and class schedule, view your degree evaluation record, and request your academic transcripts.

Be sure to close out the browser window and log out of Pirate Port to maintain security.
