1 If you are re-employed on a part-time, interim, temporary, or contractual basis, or otherwise engaged to perform services on any basis that does not require membership in the Retirement System, your retirement payment will be stopped if your earnings exceed the re-employment earnings limit. Contact TSERS, 1-877-627-3287, for your allowable limit.

2 If you had five or more years of creditable service toward retirement as of August 12, 1989, your TSERS retirement benefits, no matter what amount, are exempt from N.C. State income tax. If you were enrolled in ORP on or before August 12, 1989, your ORP retirement benefits, no matter what amount, are exempt from N.C. State income tax.
Additionally, the amount of retirement benefits subject to N.C. State income tax is the same amount of retirement benefits on which federal income tax must be paid, less a $4,000 exclusion. If the taxable portion of your annual retirement benefits is less than $4,000, you will not owe N.C. State Income tax on your retirement benefits. All or part of your retirement benefit may be subject to Federal income tax because it has not been taxed before. Contributions made prior to July 1, 1982 are not subject to federal or state taxes because contributions were made on an after tax basis.

*Faculty/staff hired on or after October 1, 2006 are governed by revised vesting rules for health insurance coverage at retirement. For those employees who fall under this new regulation, a retiree will have to complete 20 years of service at retirement to qualify for free coverage; if ten years, retiree pays half and state pays half; if less than 10 years, retiree pays full cost. Any employee hired on or after October 1, 2006 who previously participated in TSERS or ORP prior to the October 1, 2006 date will fall under the 5 year vesting rule for retiree health insurance, regardless of whether funds were withdrawn from that prior account.
