Case Study Outline

Assignment:

Today’s Date:

Due Date:

Working Title: ____________________________________________________________

◆ Abstract (150 – 250 words)
  ➢ What is your case/ project? ________________________________________________
  ➢ Questions about case study? _____________________________________________
  ➢ Hypothesis _____________________________________________________________
  ➢ Validation of Hypothesis _________________________________________________
  ➢ Important Findings (results, data analysis, conclusions) ______________________

◆ Introduction
  ➢ Why this case study? _____________________________________________________
  ➢ What interested you about it/ Why is it important? ____________________________
  ➢ What is the problem? ____________________________________________________
Method

What was the attempted solution to the problem?

(Repeatable) Step-by-Step Instructions

Results

Findings

Data/Results

Discussion/Analysis

Your interpretation of the results

Connection to hypothesis and methods

Conclusions

What has this case study proved (Was hypothesis proven)?

What have you learned from this case study?

Looking back, what improvements would you have made in methods?/Explanations for case study anomalies?
