Health Sciences Committee  
ECU Board of Trustees  
Thursday, April 19, 2007  
Trustee Suite, Mendenhall Student Center  
12:00 Noon  

Board Members Present:  
Robert Hill, Chair  
Joel Butler  
Bruce Austin  
Margaret Ward  

David Brody  
David Redwine  
Robert Greczyn  

Others Present:  
Steve Ballard  
Greg Chadwick  
Carole Novick  
John Durham  
Nick Benson  
Brian Floyd  

Phyllis Horns  
Terri Workman  
Greg Hassler  
Chris Collins  
Kevin Seitz  
Robin Johnson  

Recorder: Christy Daniels  

Call to Order and Approval of Minutes:  
Mr. Hill called the meeting to order at 12:00 p.m.  Mr. Hill presented the motion to approve the December 2006 minutes. The second was submitted by Mr. Brody and unanimous approval was given.  

Health Sciences Division  
General Overview/Updates: Dr. Horns  

The Health Sciences Division is in growth mode. The School of Allied Health Sciences: has experienced considerable growth. 157 classes are offered each week. They are reviewing program opportunities and physical resources. The Clinical Laboratory Science Department just received a full 7 year national re-accreditation. The School of Nursing: will graduate the largest number of new nurses in the history of the school. 193 pre-licensure BSN graduates (up 20 from last year); 114 new MSN graduates; and 5 PhD graduates. The school is experiencing an extensive use of a simulation and technology equipment for both undergraduate and graduate education, as well as sharing this expertise with colleagues throughout the region. The Laupus Health Sciences Library: will have a new exhibition, “Changing the Face of Medicine: Celebrating America’s Women Physicians,” opening at the library on April 29, 2007. The library is one of 61 libraries in the United States selected to host the traveling exhibition. The Brody School of Medicine: MATCH Day results include strong placements of graduates and multiple specialties. 63% of graduates are in primary care residency (Family Medicine, Internal Medicine, Pediatrics, & Obstetrics and Gynecology) The Medical Student Class Size Ad Hoc Committee is reviewing the possibility of increasing the class size from 72 to 80 students (increase could be
effective as early as the class of 2008). The Ad Hoc Committee has been asked to address some additional questions before a decision will be made. The current building was designed to meet a classroom size of 72 so if the BSOM class size increases there will have to be discussions about expansions of the building. The AAMC has encouraged medical schools across the country to increase class sizes. The Rapid Access Program has started up for those patients who need to see a physician today. This program has allowed one way to make physician services more accessible.

Dr. Horns asked Dr. Benson, Vice Dean of the Brody School of Medicine, to provide an update on EPIC/HealthSpan. Dr. Benson shared that EPIC/HealthSpan is widely recognized as one of the leading electronic records systems. HealthSpan will unite the electronics aspects of the UHS and the BSOM systems and will eliminate hassles of data flow and multiple viewing platforms. Application has been made to Duke Endowment for over $4.6 million. Final response is due in the next several weeks. Actual roll out is anticipated for October 2008. HealthSpan promises a huge step toward seamless patient care at our medical center. Benefits will be reaped by providers, staff, and patients. Rewards will be increased patient safety, increased efficiency, increased communication, and decreased cost.

East Carolina Heart Institute: Mr. Floyd

Mr. Floyd reported that the construction schedule for the East Carolina Heart Institute has been revised and construction activity is on schedule with the revised schedule. We are 2 million dollars over budget on construction. We are working with PCMH to negotiate equipment and research support which will help underlie some of the costs. The anticipated date of completion is May 2008. Marketing and recruiting is a top priority. The BSOM faculty are currently discussing the creation of a new department, Cardiovascular Health & Disease.

School of Dentistry Update: Dr. Chadwick

Dr. Chadwick reported that the School of Dentistry is still in the budget process. They are continuing to meet with the legislature and answering their questions. They are defining the site selections and looking at a phase approach. They will have one site in this area and sites across the state, including the western part of the state. They are looking at the facilities piece and developing a committee to work on the process and design phase. Also, they are looking at what point we begin student engagement. The planned start date is still scheduled for 2010 (3-4 years before the doors will be open). We need to get the word out and build good relationships with our legislators to approve the funding.
**Brody School of Medicine Update:**

Dr. Horns asked Mr. Seitz and Mr. Collins to provide an update on the business developments at the BSOM and the MFPP. Mr. Collins shared the following on the BSOM Business Developments:

- **Cancer Center**
  - CON for Cyberknife – public hearing occurred this week; received 60 letters of support, hopefully will hear an answer sometime in July. When cyberknife comes on board with the gamaknife (we will be one of 5 places in the country to have them side by side).

- **Partnership with UNC-Chapel Hill (Lineberry)**

- **Endoscopy Center – MOU signed in the next week; joint venture with the school and the hospital. Move in the Moye Medical Center (4 endo rooms on the 3rd floor) and new Digestive Disease Center.**

Mr. Collins shared the following on the MFPP:

- **Board has been paired down and empowered. More nimble board.** The Board is moving forward and making progress. The dialogue and discussion among the Board is rich and transparent. A recommendation was made to create a well defined Finance Committee. This committee meets bi-weekly and is driving the budget process for next year. The overhead is completely different. February we had the highest professional fees.

- **The MFPP Steering Committee has approved the recommendation for a position, Executive Director of the Practice Plan. This position will work with the Medical Director. This position is a common model in the country. The MFPP Board has also approved the position. The MFPP Board is waiting to hear the outcome of the HSD Organization Assessment Team’s report and the Chancellor’s decision on the structure of the Health Sciences Division before recruitment and marketing of the position can go further.**

Mr. Hill requested that a future committee meeting that Mr. Collins give a presentation on the MFPP from where we began and how we have progressed.

There being no further business, the meeting adjourned at 11:45 a.m.
Mission

East Carolina University School of Medicine was established in 1975 by the North Carolina General Assembly with a three-part charge:

➢ To educate primary care physicians
➢ To provide access to careers in medicine for minority and disadvantaged students
➢ To improve the health care services in eastern North Carolina

The School will provide exemplary educational program, research and health care services.

About the School

Named after the Brody Family of Kinston and Greenville, the Brody School of Medicine is a primary-care oriented community-based school. Each year, 72 North Carolina residents matriculate into the four-year medical curriculum. It is the academic home for over 325 physicians engaged in residency specialty training in nearly 30 different disciplines. In addition, over 70 learners are taking classes in pursuit of a Master of Public Health (MPH) degree.

The physician faculty and other healthcare providers see patients in 20 different clinics, ranging from the Family Medicine Center and the Tinglestad Outpatient Pediatric Center to the ECU Women’s Clinic and to the Infectious Diseases and Traveler’s Clinic, totaling over 350,000 outpatient visits per year. Patients needing hospitalization are admitted to the 750-bed Pitt County Memorial Hospital, the flagship of University Health System.

In 2005-2006, faculty was awarded over $17 million in new external grant funds from the National Institutes of Health and other sources. Over time, the School has graduated more doctoral students than all other programs at ECU combined. There are over 60 graduate students working toward doctoral degrees in the basic sciences.

Fast Facts
In April 2006, U.S. News and World Reports ranked the School in the Top 10 medical schools in the country in three categories:

• 6th in primary care
• 7th in rural medicine
• 9th in family medicine

In April 2007, the Brody School of Medicine received a “Family Medicine Top Ten Award” from the American Academy of Family Physicians. These awards recognized 10 medical schools for their high performance in graduating students into first year Family Medicine residencies over a 3 year period.
Over the past 25 years:
- 27% of the School’s graduates practice medicine in eastern North Carolina,
- 58% practice within North Carolina, and
- 50% practice primary care medicine.

For those who graduate from medical school and complete residency specialty training here, **75% practice in North Carolina**.

The graduating **Class of 2007 continued the tradition of choosing primary care specialties for their careers**, with 63% of the students matching into primary care residencies during Match Day. This includes:
- 19% in family medicine,
- 24% in internal medicine,
- 7% in combined internal medicine/pediatrics,
- 10% in obstetrics and gynecology, and
- 3% in pediatrics.
- 42% of the Class chose a residency program in North Carolina with 19% staying at University Health Systems of Eastern Carolina (PCMH).

**Demographics for the incoming 1st year class:**

- 72 of 72 are NC residents (out of 768 NC applicants)
- 32 counties of residence are represented (from Jackson to Bertie counties)
- 35 of 72 (49%) are female; 37 of 72 (51%) are male
- Average age is 24, with a range of 21-31
- 31 of 72 are re-applicants (43%)  
- 14 of 72 (19%) are AAMC-designated under-represented minorities
- 51 of 72 (71%) are Caucasian; 21 (29%) are non-Caucasian
- All have 1 or more undergraduate degrees, while 8 have graduate degrees
- Average GPA is 3.6 undergraduate & 3.7 graduate
- Average MCAT is 9 (27 total of 3 numerical sections)

**Twenty-five physicians** from the Brody School of Medicine at East Carolina University have been chosen by their peers for inclusion in the **2006 “Best Doctors” listing**.

In June 2006, the **TEDI BEAR Children’s Advocacy Center** in Greenville has received a three-year grant totaling $720,000 from the Duke Endowment. The money will fund the expansion of forensic assessments and the establishment of multi-disciplinary teams in as many as 12 counties to assess children who might be victims of physical or sexual abuse.

In 2004, the Liaison Committee on Medical Education reviewed the **Brody School of Medicine** and granted a **full eight years of accreditation for the education of medical students**.

**Faculty** in the School were **recipients of major awards:**
- James A. McCubrey (Microbiology) received the University’s Lifetime Achievement Award for Excellence in Research in recognition of their exemplary productivity in basic science research.
- Paul Schenarts, MD (Surgery) received the University’s Robert L. Jones Award for Outstanding Teaching and the UNC Board of Governors Distinguished Professor for Teaching Award. Dr. Schenarts was also recognized by the United States
Army with a Purple Heart for his bravery in action while on active duty in Afghanistan.
- Robert Carroll (Physiology) was named a 2006-07 ECU Scholar-Teacher.

The following new specialty clinics were opened in 2006-2007:
- The Pediatric Specialty Clinic offers a new setting for pediatric cardiology, pediatric gastroenterology, pediatric infectious diseases, and pediatric pulmonology.
- A new Infectious Diseases and Travel Medicine Clinic provides a full spectrum of assessment and care for infectious diseases and for those embarking on travel to other countries.
- A new Rapid Access Clinic offers patients “same day service” for those who need to be seen today.

Administration

Phyllis N. Horns, RN, DSN, FAAN, Interim Dean
Nicholas Benson, MD, MBA, Vice Dean
Virginia Hardy, PhD, Interim Senior Associate Dean for Academic Affairs
John Lehman, PhD, Associate Dean for Research and Graduate Studies

7/3/07
School of Allied Health Sciences
Highlights for the ECU Board of Trustees
Stephen W. Thomas, Dean
July 24, 2007

- Two faculty in the Department of Rehabilitation Studies just received a Kate B. Reynolds grant entitled, “Reducing Substance Abuse in Eastern North Carolina via Innovative Vocational Interventions: Project Working Recovery.” The three-year grant was fully funded at $247,068.

- The School received a $10,000 grant from the Pitt Memorial Hospital Foundation to sponsor the second day of the 4th Annual Jean Mills Health Symposium to be held in February 2008. The 3rd annual two-day symposium held at the Greenville Hilton was so successful that the Pitt Memorial Hospital Foundation approved our proposal to again sponsor the second day in 2008. The Jean Mills Health Symposium is funded through a gift to the ECU Medical Foundation.

- Because of the current and potential growth of funded research in the School of Allied Health Sciences, the School has just hired a highly qualified candidate to fill the new position of Associate Dean for Research. Dr. David Cistola, MD, Ph.D., a NIH funded researcher from the Washington University Medical School was hired to fill the new position and will start July 1, 2007.

- Dean Thomas was appointed by Governor Mike Easley to a five-year term on the North Carolina Institute of Medicine.
The School of Nursing has recently received several grants to support our teaching, research, and service missions:

- “Increasing the Number and Diversity of Nurse Practitioners in Rural North Carolina,” Health Resources & Services Administration (HRSA) Grant for $717,400.
- “Expanding Clinical Capacity through the Shared Use of Human Patient Simulators,” AHEC Grant for $50,000. We will be working collaboratively with Pitt Community College’s Nursing Program on this project.
- “Clinical Site Development,” AHEC Grant for $11,000
- “Sister Matilda Cosker’s Advices Concerning the Sick,” Vincentian Studies Institute for $10,000

The School of Nursing will be admitting our largest cohort of undergraduate students in fall 2007 with 130 students.

A new web site (EXCHANGE) has been designed to enhance communication with our external constituents (preceptors) as well as enhance communication with faculty and students.

The NEED (Nursing Education Educator Development) series will be offered as an online course for nurse educators to assist faculty throughout the state to meet mandated NC Board of Nursing requirements.
Greetings from the Laupus Library!

1st Anniversary of the new Laupus Library
It is hard to believe we have been in the new library one year. The pace of activities in the new facility is settling down and we are developing routines of daily living appropriate to these wonderful new facilities. The 1st floor door into the library has been widened to facilitate movement of materials from the Laupus loading dock throughout the Health Sciences Building. Having observed how people traveled through the building during our 1st year of operations, we have now programmed this door to be open from 7:30 am – 5:00 pm Monday – Friday. This allows people to go directly to Library Administration (Room 1500), EAHEC/Outreach Services (Room 1502), Student Services (Room 1504), Telecommunications Conference Room (Room 1506) and the Administration Conference Room (Room 1517) without having to enter the Library via the 2nd floor main entrance. Almost all needed signs have been installed to help our users navigate the four floors of the Library. Plans also call for a comprehensive review of services, and resources located in the 2nd floor Information Commons during the 2007/08 academic year. With more digital resources available at the desk tops of users, we will be reassessing how best to use this valuable space to meet the needs of users from all the schools served by the Library.

Faculty Tenure and Promotions
Congratulations go to Jeff Coghill, Collection Development Librarian, Roger Russell, Head of Information Services and Susan Simpson, Associate Director on receiving tenure and promotion to the rank of Associate Professor. We acknowledge and appreciate the excellent work and service they have provided to the Library and its users. We look forward to continued leadership from these, our newest tenured faculty.

Recruiting an Additional Liaison Librarian
Due to the dramatic increases in the number of personnel in the School of Nursing needing services from Laupus Library, recruiting is underway to hire a second librarian liaison to serve this user population. We anticipate having this new position filled in time for the fall semester.

Changing Face of Medicine Exhibit: Celebrating America’s Women Physicians
From April 29 – May 28, 2007 the Library hosted this national touring exhibit sponsored by the American Library Association and the National Library of Medicine. This exhibit and companion programs were Laupus Library’s gift to the ECU Centennial Celebration. In addition to the actual exhibit, the Library hosted four additional special events all focused on different aspects of this topic. The Opening Reception, April 29th, featured...
“Local Legends”, Drs. Peggy Goodman, Ann Jobe and Leslie Mega. Dr. Regina Morantz-Sanchez, Professor of History, University of Michigan spoke on April 30th about "How Gender Changed the History of Medicine. On May 3rd, Dr. Marcella Fierro, Chief Medical Examiner of the State of Virginia spoke on “Fearless Females: Women in Forensic medicine.” The final program, “Women in Health Care: Leaders Today and Tomorrow” included a panel comprised of Virginia Hardy, PhD, Phyllis Horns, RN, DSN, Valerie Gilchrest, MD, Cynda Johnson, MD, MBA, Beth Velde, PhD and Deborah Davis, University Health Systems. The panel answered questions on how they came to hold their leadership positions and what opportunities and hurdles they see for young women contemplating future careers in the health sciences. Special recognition goes to Kelly Rogers, Jason Cottle, Ruth Moskop and Patrice Barrow for their outstanding leadership and coordination of this ambitious project. We are especially grateful to Chrystal Baity, News & Communications, for her outstanding job in helping us promote this project. The Library received coverage in more than 27 local and regional news and mass media outlets. Special thanks also go to the Daily Reflector for their generous continuing coverage of this exhibit and activities.

Medical Information for Moldova
As part of the North Carolina-Moldova Bilateral Project, the North Carolina AHEC Libraries recently sponsored a drive to collect surplus, recent (2000 and newer) biomedical books and journals to be sent to the nation of Moldova in eastern Europe. Laupus Library, which serves as the library for Eastern AHEC, participated in this drive both through donation of surplus materials and by serving as the staging point for collection and preparation of the shipment.

A shipment of 183 boxes of books and journals left the Laupus Library’s shipping dock on June 18th en route to Fort Bragg, NC from where they will be repackaged in a container with other project donations. The journey to Chisinau, Moldova is expected to take 6-8 weeks. Each book or journal sent included a book plate reading: “In the spirit of international cooperation, this book is given to the Scientific Medical Library of Moldova. North Carolina –Moldova Medical Library Partnership – 2007”

On June 22, 2007, Dr. Spencer received a letter of thanks from North Carolina Secretary of State Elaine Marshall. Secretary Marshall wrote, “…Thank you once again for East Carolina’s contribution. The video lectures arranged by Dr. Rosina Chia have been well received and now enhanced by the contribution of this material. Please extend my thanks to others who may be advised of our appreciation.”

Specific thanks go to Beth Ketterman, EAHEC /Outreach Librarian; Patty Greenstein, Ethel Chapman, Janet Heath, Jean Ipock, and Delores Reeves of our Bibliographic Management Department and Chrystal Baity, News & Communications, for their hard work and efforts on behalf of this project. We also wish to thank the Daily Reflector for their excellent coverage of ECU’s efforts in support of this project.
