

INSTRUCTIONS

1. All information must be filled out by the generator.
2. In the area marked "**Accumulation Start Date**" enter the date the material became a waste or the date the first wastes were placed into the container.
3. In the column marked "**Contents**" list by name all chemicals in the container including non-hazardous chemicals (i.e. water). Do not use chemical formulas or abbreviations.
4. In the column marked "% " enter the closest approximation of the percentage associated with each chemical in that container. The sum of the chemical contents must equal 100%.
5. In the column marked "**Amount**" enter the amount of waste (in gal, lb, L, kg, etc.) that is present in the container.
6. When the container is ¾ full, contact EH&S for pick-up. Tags must be completed for each container and **signed** by the generator.

Do's and Don'ts

- Do not overfill
- Use tight fitting lids
- Check for leaks
- Do not use "milk jugs", "Clorox bottles" or other non-chemical containers

For additional information, call EH&S at 328-6166.
