Graduate Business Core Course Waiver Information

The MBA degree program requires between a maximum of sixty semester hours (twenty classes) and a minimum of thirty semester hours (ten classes). The program is divided into two major components: ten business core courses and ten business breadth courses (see other side). The ten business core course component is designed to quickly give a non-business undergraduate student the same academic knowledge-base as that of an undergraduate business student. Some or all of these classes may be waived if students have completed appropriate undergraduate course work at acceptable performance levels. Course waivers are made on a course-by-course basis as approved by the Assistant Dean for Graduate Programs if equivalent undergraduate courses have been completed with a minimum grade of B.

The ten business core courses and the corresponding ECU undergraduate courses required for waiver follow. Students applying from other institutions should match completed course work as closely as possible to ECU course names. Students are encouraged to visit the College of Business GOAL (Graduate Online Advising Liaison) to complete an online questionnaire for an unofficial review or course waivers (<http://www.ecu.edu/cs-bus/busgoal.cfm>).
