Purpose

AgriSafe-NC is a program specially designed to make life on the farm safer and healthier by making healthcare services more accessible and affordable for farmers. AgriSafe, the NC Agromedicine Institute and NC Cooperative Extension collaborate to promote Certified Safe Farms through health services and PPE selection, on-farm safety reviews and joint education and outreach. Certified Safe Farms have lower health and liability insurance claims costs and healthier, safer farmers.
Who qualifies for AgriSafe Services?

- Farmers
- Farm families
- Farmworkers

What will it cost me?

Services provided on the farm are free except for personal protective equipment (ex. safety glasses, ear plugs, respirators, etc. Health insurance is not required.
