Howdy Folks! My name is ____________.
Welcome to our maze. This is millet and cows, horses, and goats love to eat it! It's one of their favorite foods.

You’re going to have lots of fun learning that some of your favorite foods come from a farm, not MacDonald's or the grocery store.

Do you have a favorite food? (call on 2-3)
Respond with: Did you know that comes from a farm?
That's grown on a farm, too!
You'll learn where that comes from.

Everyone will get a card like this. (Show the blank one.)
As you go through the maze, you'll find little boxes. Open the boxes and follow the directions. You may have to stamp or write something on your card. Be sure to close the box when you finish so the next person can have fun opening it.
You know you've seen everything when your card looks like this. Everything will be complete. (Show the completed one.)

Remember: If you open a box, what do you do? CLOSE the box.

There are some treats hidden around in the maze. When you find them, please take just one so there will be enough for everyone.

Boys and girls, it is very important that you stay with your group. Do not go through the millet. There may be bugs and spiders and snakes, Oh my!! Stay on the paths so you can see where you're walking.
