TEACHERS AND PARENTS- I NEED YOUR ATTENTION NOW.

Please remember, we have precious property visiting us, so we ask that you DO NOT smoke. Anywhere, anytime.

We encourage you to divide into small groups and spread out. Go in different directions to avoid congestion at any one station. Please keep the children with you - don’t let them wander off alone. And please do not walk through the millet-stay on the paths.

Help make sure the boxes are closed before you leave a station and that items remain at their correct location.

We do have peanuts in the maze but they can be avoided if there is an allergy concern. They are located in this corner (point) marked by flags and can be seen from a distance. Paths are available to bypass that area completely. However, people do carry the nuts throughout the maze and drop them all over. If there is a severe allergy present we recommend not going into the maze unless the parent or teacher has an epipen available.

You may exit and re-enter the maze as often as needed. (Point to both entrance/exit locations.) There are two entrances and exits for your convenience. Bathrooms and water are right here. (Point)

Please wait here until your group completes the maze or if your teacher allows, you may wait in the playground area. We will continue your adventure once everyone is back together. Please do not leave this area until we move you as a group.

Any questions?

Again, my name is _____________. Holler if you need anything.

Let group divide into smaller groups as needed. Guide some to second entrance.

Walk maze, close boxes, pick up candy paper, check pencils, restock candy and peanuts, refill Millie, moisten ink pads, etc.

Talk to children and teachers/parents. Keep your map with you for giving directions. Be alert to time.
