Research, Economic Development Engagement - REDE

Have an idea? Working with a small business? Trying to connect to industry? Looking for a community partner?

The Division of Research, Economic Development, and Engagement serves the Academic Affairs and Health Sciences divisions. The “R” in REDE supports faculty research, scholarship and creative activity. The “ED” in REDE supports public-private partnerships to produce innovations in education, science, technology and the arts to foster community enhancement and regional development. The “E” works to engage and support faculty and students with external partners to create broader impacts through community engagement and outreach.
