Population Health: The Perspective of the Community

Presented by Ricardo Correa
Outreach and Enrollment Coordinator
Outreach and Enrollment Program for the Lincoln Community Health Center
“The health outcomes of a group of individuals, including the distribution of such outcomes within the group.”
What is the perspective of the community when the term “Population Health”? 
What is the perspective of the community when the term “Population Health”?

Department of Outreach and Enrollment
What is the perspective of the community when the term “Population Health”?

The definition of “PH” from the perspective of the community is confusing. The community wouldn't be able to differentiate between health, public health, community health and population health. The community would see it as one big giant ideal...HEALTH.
The typical health needs of a community:

- Proper knowledge of resources
- Transportation barriers
- Stable financial status
