

### **Crystal (Legg) Helmkamp**

Crystal graduated in 2002 and she currently lives in Gates County with her husband Karl and their dog, Maggie (who stills loves it when Crystal sings to her). They are expecting their first child in June; a little girl. Her hobbies include shopping, boating, going to the beach, playing tennis and softball, and being with her friends and family. Since graduation, she has been working in the school system of Suffolk and Franklin, Virginia. Her greatest memories from ECU are the friends that she made while in occupational therapy. She's kept in touch with many of them, they've participated in each other's weddings and they use each other for support as well as for resources. In the future she would like begin her own practice.
