

Elizabeth Edwards

Elizabeth graduated in 1975 and she resides in Greensboro, NC. Her most interesting class memory is passing out on the first day of gross anatomy due to the formaldehyde odor. One of her best accomplishments since graduating was spending twenty-eight days doing Outward Bound in Maine. She is current working at Moses Cone Health System and has worked in pediatrics, home health and rehabilitation. Now her specialty area is stroke rehab. Favorite moments on the job field have been when she traveled the back roads of South Carolina in the early 1980's providing home health care to very poor people, but receiving so many blessings from them. Her hobbies are hiking, biking, camping, recycling, composting, and riding her bike to work. In the future she wants to open her own group home.
