

Hope Clayton (Beth Robison)

Hope currently lives in Valdese, NC and she graduated in 1985. She is married to David and they have three children, Jake, Aaron and Ansel. A few of her greatest class memories were the Pinning ceremony and graduation. She also recalls the summer they took anatomy and drove four or five of them back and forth to the medical school in her convertible “karmann ghia” with the broken door and especially the day they all got their “box of bones” and stacked them in the back with two girls sitting on top—like a parade. Her greatest accomplishment since graduating is opening an outpatient pediatric center (Grace House). She is self employed in her own business called One Therapy. She contracts with Burke County Schools, sees children privately, supervises several COTAs seeing children. Since graduation she has also worked in Adult rehab, hands, and pediatrics. Her specialty areas are pediatrics and assistive technology. Her favorite moments while out in the job field are the times when she gets to see a child do something that they didn’t think they could do. Her hobbies are gardening, watching soccer and tennis. In the future she would like to get all three of her kids through college!
