

Meredith Turlington

Meredith lives in Raleigh, NC and she is a 2001 graduate. What she remembers most about attending ECU was “definitely the gross anatomy”. Her greatest accomplishment since graduating has been becoming SIPT certified. She is working at Allied Rehab in Wake Forest, NC in an outpatient clinic. They have contracts with CDSA, daycares and charter schools. She treats all types of kids with her specialty areas being sensory integration. Her favorite moments are times when she can see progress in the kids and when they smile and hug her. Her hobbies are scrap-booking, playing piano, painting pottery, hanging out with her friends and taking her dog for walks. In the future she would like to continue to learn more in the pediatric field.
