

**Robert and Katrina Larrison** are both graduates from the class of 1990. They met and began dating while in OT school and got married soon after. They now live in Charlotte, North Carolina with their 8-year old son and 7-year old daughter. After graduation, Katrina worked for 5 years before deciding to become a full-time mom, and now enjoys being there every day for her kids, coaching two soccer teams, attending PTA meetings and assisting with teaching a class at the kids' school. She maintains her license to practice and occasionally does PRN work in various local settings. Robert has continued to advance his career over the years and has obtained his MBA and currently works as an administrator for the Carolina Health Care System and is Vice President of the Charlotte Institute of Rehabilitation. He has also worked as an administrator for a nursing home, taught classes at the University of Tennessee, and he is a Fellow of the American College of Healthcare Executives (FACHE). He intends to continue pursuing his career in healthcare in the years to come, looking forward to any new opportunities that may arise. Both initially came to ECU because it was the only state college at the time with an undergraduate OT program, and the most significant memory they have is the camaraderie that developed between the 19 students in their class, and the fact that they met each other while they were there.
