Welcome to East Carolina University! We are pleased that you've chosen to join us in the Department of Rehabilitation Studies, and look forward to welcoming you to campus. We know you have a contribution to make to East Carolina University and to the Department of Rehabilitation Studies.

New Student Orientation will be held **Friday, August 26th from 10 a.m. to 1:30 p.m. in room 2305** of the Health Science Building, Health Sciences Drive. **Your attendance at this meeting is mandatory.** During orientation, you will receive information about the department, program requirements, the degree process, and will meet with your advisor concerning your program of study. The agenda is posted on the department's web site at www.ecu.edu/rehb.

Prior to this meeting, we ask that students **review their program manuals**, located on the department's web site under "Student Resources." The manuals include policies, rules, and guidelines related to each program. Please note any questions which the review of your manual may prompt, and we'll be glad to address them during the orientation meeting.

Also, most of our departmental communication is conducted electronically. Shortly, you will receive your **East Carolina University e-mail** address - the "official" email we use to communicate with you. Please check your ECU email on a regular basis. Upon graduation, you can continue your ECU email account to keep in touch with the department (i.e., receive departmental newsletters, job banks, and workshop announcements for continuing education and license renewals). We will also use it in contacting you for feedback on how well your graduate program prepared you for your professional career.

Our faculty and I look forward to the beginning of your graduate studies in the Department of Rehabilitation Studies at East Carolina University. Please contact me with any questions you may have.

Sincerely,

Lloyd Goodwin, Ph.D., LPC-S, LCAS, CRC-CS, MAC, CCS, ACS
Interim Chair and Professor
Department of Rehabilitation Studies
