VALUED AT $4,324,350

$18.1 MILLION* in federal and state funded projects, adding value to ECU and the community

MORE ADDED VALUE
Teachers who graduate from the ECU College of Education Programs
- Complete Clinical Experiences in Rural, High-Need Schools
- Are “highly qualified”
- Meet NCSCOS standards

* Exact figure $18,152,948. Full funding amounts, not the annual amount (active during 2015-2016)
ECONOMIC IMPACT OF VALUE ADDED to eastern North Carolina by the EAST CAROLINA UNIVERSITY COLLEGE OF EDUCATION IN JUST ONE YEAR... $45,915,698
Since 1976, the ECU COLLEGE OF EDUCATION has produced over 28,235 GRADUATES who, in turn, have impacted approximately 6,273,252 STUDENTS.*

* The formula used in computing the number of students our teacher graduates have interacted with is based on graduation statistics, the average number of students in a teacher’s class being 16.1, and the average number of years a teacher will stay in the classroom of 13.8. The last two averages are obtained from National Center for Education Statistics.

Valuations used in computing impact were provided by school district administrators, professional service providers and university faculty, and represent the most accurate information available at time of publication.

The formula used in computing valuation for CLINICAL EXPERIENCES is:

\[
\text{NUMBER OF INDIVIDUALS PROVIDING SERVICE} \times \text{NUMBER OF HOURS OF SERVICE PER INDIVIDUAL} \times \text{SERVICE EXPRESSED IN DOLLARS PER HOUR} = \text{VALUE}
\]

The formula used in computing valuation for PROFESSIONAL DEVELOPMENT, PARTNERSHIP AND SERVICE PROGRAMS is:

\[
\text{NUMBER OF PARTICIPANTS} \times \text{NUMBER OF HOURS} \times \text{RATE PER HOUR} = \text{VALUE}
\]
