3.4.f – Guidelines for student teaching and internships (e.g., handbooks)

The purpose of Teacher Education at ECU is to prepare professional educators who are academically and technically proficient, reflective in practice, committed to the intellectual empowerment of others, and guided by the larger democratic purposes of American Education.

The mission of Teacher Education is to prepare and develop professionals through partnership with the educational community. Teacher Education is committed to the vision of preparing education and human services professionals who are academically and technically proficient; knowledgeable, skilled, and reflective in their practice; committed to the empowerment of all people to develop their full potential; and committed to the role of public education in a democratic society.
