I am completing a College of Education advanced level licensure program as a non-licensure candidate. All coursework requirements will be the same as in a licensure program, including Graduate Evidences, as they are COURSE requirements. I understand this non-licensure designation means that upon degree completion, I will not be recommended for advanced licensure in the state of North Carolina. Any arrangements for advanced level licensure in any other state or country must be initiated and facilitated by me. An advanced level NC licensure recommendation may be completed at such time I receive an appropriate, valid, current NC license. It is my responsibility to contact the graduate program director/coordinator in my program area to have this non-licensure waiver removed from my record if an appropriate, valid, current NC license is issued prior to the completion of the advanced level licensure program.
