

Download and Install Expression Studio 4 from Microsoft DreamSpark – STUDENTS*

*Faculty and staff should visit download.ecu.edu for a free version of Expression Web

Microsoft allows students attending member schools to download several software programs **FOR FREE**. Follow the steps below to download and burn to disk a free version of the **Expression Studio 4** Web development suite.

Tools Required: Computer, Internet connection, (1) blank Read or Read/Write CD or DVD

First, open a browser and navigate to <http://www.dreamspark.com/>.

Click the **Expression Studio 4 Ultimate** button.

The window to the right opens.

Step 1. Sign In.

Click the **Sign In** button. The window to the left opens. Log in using your student **ECU e-mail address** and **passphrase** (this is also a Windows Live ID).

Step 2. Get Verified.

Click the Get Verified button and choose the options below:

1. What country do you live in?
Choose option, **United States**
2. How would you like to verify?
Choose option, **Verify as a Student**
3. How would you like to verify your account?
Choose option, **Get verified through my School**

Click the **Continue** button. You will only see this screen the first time you log in to DreamSpark.

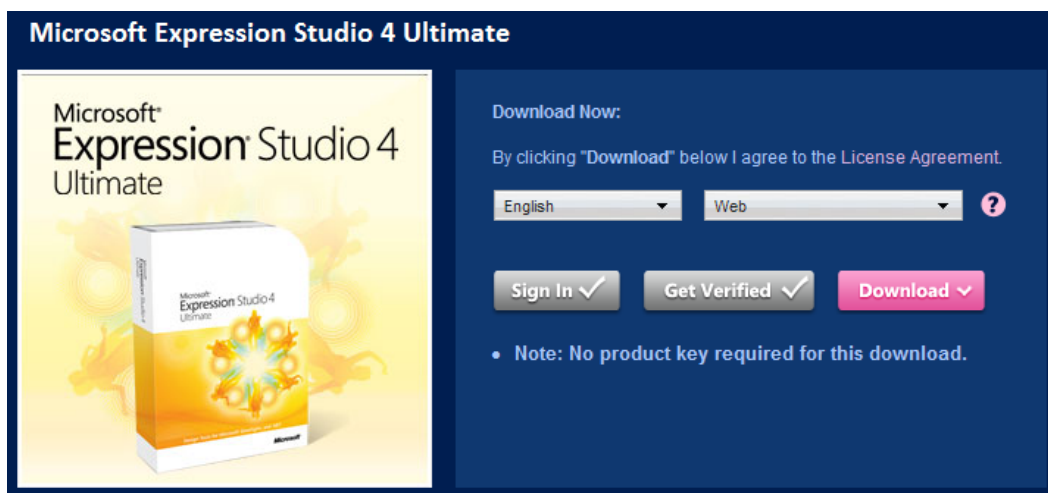

Step 2. Get Verified (continued).

Verify Your School

Click the **Verify Your School** button and configure the options the same as below:

1. Leave the **country** option as the default, **United States**
2. To select the **state**, choose option **North Carolina** from the drop-down menu
3. From the **School** selector box, scroll down and click, **East Carolina University**
4. At the **Congratulations** screen, click the **View All Products to Download** button to continue.

NOTE: If you are using a pop-up blocker (and you should be!), you may see a message at the top of the browser window that pop-ups are blocked. Click to allow pop-ups for the DreamSpark site.

Step 4. Download

1. Choose your **language** from the drop-down menu.
2. Choose **Download Manager** from the second drop-down window
3. Click the pink **Download** button.

A new browser window will open asking you to wait while the Download Manager begins the download. You may see the pop-up blocker warning again—allow pop-ups for this window also.

DreamSpark downloads an **ISO image file** of the **Microsoft Expression Studio 4** suite. An **ISO image file** must be burned to a CD or DVD before you can use it. You cannot download and install the program suite directly to your computer.

NOTE: You may be asked to download Microsoft .NET Framework 4 software before you are allowed to complete download.

- Depending on the setup of your computer, the download may open directly into your CD/DVD burning software, such as **Roxio**. Insert the blank CD or DVD (either **READ** and **REWRITABLE** will work) and copy the ISO image file to the blank disk.
- If you are using Windows XP and do not have a third-party CD/DVD burning software, insert the blank CD or DVD and right-click the ISO file. Choose **Send to...** The files will automatically write to the blank CD or DVD.
- If you are using Windows 7, insert a blank CD or DVD into the drive. Right click the ISO file and select the option **Burn disc image**.

Once burned, open the CD/DVD files and double-click the Setup file (the third file in the list) to install the Expression Studio 4 to your personal computer.
