1. **General Purpose of Activity:** Participants will gain knowledge skills and relevancy on current topics and trends affecting school media programs as well as updates on the North Carolina School Media Programs. Participation in round table discussions facilitated by experts in the fields of the topics. These discussions will provide networking opportunities, tools, resources, exposure, and awareness of current trends and topics that can be effectively implemented into current and future school media programs.

2. **Specific Competencies to be Developed:** School media coordinators will actively participate in discussions facilitated by field experts to gain details and insight of current trends and topics in order to implement new strategies and techniques which will further enhance their school media programs.

3. **Evaluation methods to determine whether each person has developed competencies. Check those to be utilized.**
