The Reflector has felt no more gratified at the defeat of a man not known personally than it did to learn of the defeat of J. F. Click, editor of the Hickory Times-Messenger, who was one of the Senatorial candidates in the district composed of Catawba, Wilkes, Lincoln and Alexander counties. Early in the campaign when the people of the west began learning of the conditions that prevailed in the east, and Gov. Jarvis' letter telling of negro domination in Greenville had been published, Click wrote to Rev. A. W. Setzer, who came from his county and knew him well, asking for information on the subject and if the statements published were true. Mr. Setzer wrote the facts as they existed but this was not being done. Click wanted it to be done. After another man in Catawba wrote Mr. Setzer for information and upon receiving his reply gave it to the Newton Enterprise.

fascinated. He is a fine organization man. He makes no mistakes. He is bold, aggressive and wise. He is brave and full of courage and does not flinch in the face of calls against him. The State owes him a debt of gratitude which it will pay some day. All laws to the noble Simmons. He was aided very greatly in his work by county chairman. We can speak positively in reference to this in Pitt county. A. L. Blow who was at this belt of a man for his work more certainly. He is energetic, unflagging, patient and tireless in his efforts in his work. There are few men who keep up as well with every detail of the campaign work as A. L. Blow. In the present contest he was excelled himself and every man in the county will respond to the sentiment, well done, good and faithful chairman. He was aided notably in his work by many of his fellow Democrats. Their names are too numerous to mention, but we feel it is due to P. G. Fleming in his canvass of the county and his activity in aiding in the organization of the White Unions deserves special mention and commendation at the hands of his fellow citizens. So was also S. C. and W. E. Harding unting in their labors in organizing White Unions which aided caste.
