The President's Message

The Republican party in State and National stands for the very opposite of these things. In National affairs it stands for the gold standard, for clear money and cheap labor, for low prices for what the farmers sell and high taxes on what they buy. In State affairs it stands for law and order, for crimes and scandals of high and low degree. In 1868 it took absolute control of our State and municipal governments. The record it made in the one dark chapter of our State's history, never to be repented of, and the result of its administration is so well known that no one can be expected to tell American voters.
