GOV. JARVIS ON PRITCHARD

Democrats Appeal to Ballots; Republicans Appeal to Bullets.

HERE'S THE SITUATION

GOVERNOR JARVIS THROWS THE SEARCHLIGHT OF TRUTH ON
PRITCHARD'S SLANDER
OF THE STATE.

WHITE MEN WILL NOT BE INTIMIDATED

Pritchard's Appeal and Russell's Proclamation
Show that the Republican Party Cannot Give Peaceful and Good
Government to the State.

(Extract from a speech by Governor Jarvis delivered at Marion, October 26th, 1898).

So far in this great campaign I have discussed principles and conditions and have studiously avoided with rare exception offensive personal allusion to the those who differed with me. Whenever I have referred to Senator Pritchard I have done so in the most respectful manner, but the time has come when I feel called upon to severely criticize his public utterance and acts. His party in convention in the city of Raleigh in July last accept the issue. Our faith, we repeat, is in the people and we urge all who believe in the supremacy of the Civil Law, in the supremacy of the White Man and in good government to speak out through the ballot box on the day of election in favor of these blessings and to rebuke this effort of Pritchard and Russell to Cubanize and negroize North Carolina.

Senator Pritchard some years ago, it will be recalled, undertook to organize a White Man's Republican party. He seems never to have put himself at the head of a Black Man's Republican party and now that he is ready to use the army of the United States to maintain its supremacy in North Carolina I do not believe that the honest White Republicans will follow him in this new role. I am satisfied that thousands of them will this time vote with the Democratic party for White Supremacy and good government. Ah! my fellow citizens, may I not expect tens of thousands of them to put the seal of their condemnation upon this bold effort of their leaders to Cubanize and negroize North Carolina? The ballot-box is the place at which and the Democratic ticket the instrument with which it can be done.

The Senator talks in his speeches, so I read in the papers, about upholding the honor and dignity of the State. I humbly submit that he strikes a wicked and cruel blow at his State when, without any cause, he publishes to the world that it is necessary for the President to send troops here to keep the peace. For one, I protest against this vile slander upon a State whose people are among the most conservative and law-abiding of any in this Union. I am willing anywhere to compare records with the Senator as to who has labored most for the honor and dignity and good name of North Carolina. I am willing to submit these questions to the conscience and judgment of the good men of his own party and to let them decide between us. I say this to emphasize the protest: I am making against this griceuous wrong he is doing his State. If he thinks he can intimidate the white men of the east with United States troops he knows but little of the men he has the honor to represent in the Senate and which he is to lead.
vention in the city of Raleigh in July last declared him to be the leader of the Republican party in North Carolina. His acts and utterance, therefore, have a special significance and may be subject to special criticism. I see by the papers that he has called upon the President for troops to be sent to North Carolina. The full text of his letter to the President has not been given to the public and we therefore cannot know what representations have been made by him, but the press dispatches tell us that his letter was the subject of a Cabinet discussion. We may, therefore, assume that the charges he makes against the white men and tax-payers of his State are of a very grave character. He, of all Republicans in the State, should have been the last to do this grievous wrong to a law-abiding people for he is very largely responsible for the conditions prevailing in the very sections of his State where he desires troops to be sent. As a United States Senator he has through a Republican President filled Eastern North Carolina with negro postmasters and other officials. As the leader of his party he has through a Republican Legislature connived at turning over cities and towns to the negroes and their allies. Hundreds of negroes now fill the offices of justices of the peace and school committeemen as a result of Republican legislation. Governor Russell, Senator Pritchard's governor, has himself declared in the most emphatic terms that these people are unfit to govern. Pritchard and Russell have therefore forced the issue upon the white people of the East of submitting to negro domination or of appealing to their white brethren of the West to vote with them for a restoration of white supremacy in North Carolina. They have adopted the latter course and for four months on the stump and in the press this appeal has been ringing in the ears of the people and the patriotic, law-abiding, honest white men of the State are getting together upon this great all-absorbing, all-pervading issue.

There is an uprising of the people in the sections where Pritchard and Russell and the Republican party have set the negro up to rule over white men and women that strikes terror into their guilty souls and they tremble on account of the shame of infamy they have on the men he has the honor to represent in the greatest legislative body in the world. They are the equal in virtue, manhood and intelligence of any people in the world, and they will not be ruled by an inferior race and neither Pritchard nor Russell nor an army can compel them to submit to it, and the sooner Mr. Pritchard learns this the better for him and his party. Let me tell the Senator he cannot intimidate these people. They are not made that way.

And may I not appeal to the white men of the West without regard to party to rise up in their might and power and say to Pritchard and Russell that their State shall not be Cabanneled and that the men who would bring an army into this State shall be condemned and denounced as enemies of the State and her people.

Men of North Carolina: For twenty years the Democratic party gave you a peaceful, prosperous, clean government. No man, however humble, felt insecure in any of his rights. Peace and law and order and security dwelt in every section of our beloved State. The Republican party has now been in power less than two years and so bad has been the government given the people by it that the Governor has felt called upon to issue a long proclamation to quell the evil forces his party has put in motion and we are told if that fails the army of the United States is to be called upon. Do the people need any other argument to show the utter inability and unfitness of the Republican party to govern North Carolina. With these conditions staring him in the face can any honest man who loves his State hesitate to vote to drive this party of misrule from power and to turn over the government of his State to the Democratic party to be ruled by white men and the civil law?

**THAT COMMON TROUBLE, ACID DYSEPPIA, OR SOUR STOMACH.**

Now recognized as a Cause of Serious Disease.
New Recognized as a Cause of Serious Disease.

Acid dyspepsia, commonly called heartburn or sour stomach, is a form of digestion resulting from fermentation of the food. The stomach being too weak to promptly digest it, the food remains until fermentation begins, filling the stomach with gas and a bitter, sour, burning taste in the mouth is often present. This condition soon becomes chronic and being an every day occurrence is given but little attention. Because dyspepsia is not immediately fatal, many people do nothing for the trouble.

Within a recent period a remedy has been discovered prepared solely to cure dyspepsia and stomach troubles. It is now known as Stuart’s Dyspepsia Tablets, and is rapidly becoming used and prescribed as a radical cure for every form of dyspepsia.

Stuart’s Dyspepsia Tablets have been placed before the public and are sold by druggists at 50 cents per package. It is prepared by the Stuart Chemical Co., Marshall, Mich., and while it promptly and effectively restores a vigorous digestion, at the same time is perfectly harmless and will not injure the most delicate stomach, but on the contrary by giving perfect digestion strengthens the stomach, improves the appetite and makes life worth living.
