**A. Positions and Honors**

**Positions and Employment**

2003-2004 Postdoctoral Fellow, Department of Pediatrics, Georgia Prevention Institute, Medical College of Georgia

2004-2006 Assistant Professor, Department of Health and Sport Sciences, University of Louisville

2006-Present Assistant Professor, Department of Family Medicine (08/2006-06/2008), Department of Public Health (07/2008-Present), Brody School of Medicine, East Carolina University

**Other Experience and Professional Memberships**

2000 -Present Member, American College of Sports Medicine

2006-Present Associate, Pediatric Healthy Weight Research and Treatment Center, East Carolina University

2007-Present Member, American Public Health Association

2007-Present North Carolina, Action for Healthy Kids Steering Committee

2007-Present Membership Committee Chair, APHA Physical Activity Special Interest Group

2008-Present Director of Research, Dept. of Public Health, Brody School of Medicine, East Carolina University

**Honors**

1996-1998 Minority Graduate Fellowship, University of Mississippi

2001, 2002 Graduate Student Professional Development Award, University of Texas at Austin

**B. Selected Peer-Reviewed Publications**

**Published Articles (2000-Present)**

**Select Published Abstracts (2007-Present)**

Moore, J.B., Shores, K.A., Brownson, R., Novick, L.F., Rodriguez, D. Perceptions Of Opportunities, Environmental Supports And Barriers For Physical Activity In Rural And Urban Middle School Youth And Their Parents. *Medicine & Science In Sports & Exercise. 41*, 5 (Suppl. 1).
C. Research Support

Principal Investigator: Justin B. Moore, Ph.D. 10/08 - Present

Familial and Behavioral Risk Factors for Overweight in Children with Overweight and Normal Weight Siblings
Brody Brothers Endowment
The goal of the project is to identify risk factors for obesity in siblings living in the same household. These will be identified at the intra-personal, inter-personal, and behavioral levels as they relate to energy intake and expenditure.
Role: PI

Principal Investigator: Stephanie B. Jilcott, Ph.D. 10/08 - Present

A mixed-methods examination of effects of the food and physical activity environments on dietary and physical activity practices among rural and urban women
East Carolina University – Division of Research and Graduate Studies
The goal of this project is to identify the relationship between the home/community food environments and energy intake in rural/urban women.
Role: Co-Investigator

Principal Investigator: Justin B. Moore, Ph.D. 11/07 - Present

Understanding the Relationship of Environmental Perception and Physical Activity Choices among African American Girls
East Carolina University – Department of Family Medicine
The goal of the project is to determine spacial relationships between physical activity and environmental supports/barriers in African American girls using GPS and accelerometer technology.
Role: PI

Principal Investigator: Justin B. Moore, Ph.D. 10/07 - Present

The Role of the Physical Environment in the Physical Activity Behaviors of Rural and Urban Children
K01 DP001126-01
CDC/ National Center for Chronic Disease Prevention and Health Promotion
The goal of the project is to identify barriers and supports for physical activity in rural and urban middle school children so that appropriate intervention strategies can be targeted at physical activity promotion.
Role: PI

Principal Investigator: Justin B. Moore, Ph.D. 3/06-9/06

Understanding Psychosocial Factors which Influence Weight Status through Physical Activity and Eating Behaviors
Puchase Area Health Education Center
The goal of the project is to determine modifiable psychosocial variables related to physical activity and fruit and vegetable consumption in rural 4th and 5th grade students as they related to CV fitness and adiposity.
Role: PI

Principal Investigator: Dean Jacks, Ph.D. 12/05-Present

Submaximal Cardiovascular Fitness Measurement for Children
University of Louisville – Graduate School
The goal of this study is to determine the validity of a three minute step test for the assessment of cardiovascular fitness in children.
Role: Co-Investigator

Principal Investigator: V. Faye Jones, M.D., M.S.P.H. 8/05-8/06

A Preschool Interactive Reading Program to Promote Healthy Practices
University of Louisville School of Medicine –SRSP Program
The purpose of this project is to increase the number and types of new foods eaten by preschool children and their parents, as well as to increase the amount of physical activity engaged in by preschool children and their families.
Role: Co-Investigator

Principal Investigators: Bob Topp, Ph.D., RN & Valerie M. Crabtree, Ph.D.  2/05-7/06

**Family Case Management Of Obese Children In Primary Care**

University of Louisville School of Medicine – SRSP Program

The overall goal of this project is to develop and pilot test materials to be used in a family case management program for obese children and their families in a primary care setting.

Role: Co-Investigator

Principal Investigator: Gloria Nichols-English, Ph.D.  1/03 - 7/03

**Washington-Wilkes Family Lifestyle Improvement Project (Flip)**

Georgia Center for the Prevention of Obesity and Related Disorders

The goal of this project was to increase physical activity among predominately African American women in a rural community setting through a community initiated mother/daughter walking program.

Role: Co-Investigator
