Department of Undergraduate Nursing Science Senior Division:

The WAC committee has unanimously approved WI designation for NURS 4904 and NURS 4905 pending minor edits. On behalf of the committee, I would like to thank you for your time. The thoroughness of the submitted materials and your level of professionalism are to be commended.

The committee requests that you resubmit proposals and the syllabi reflecting the suggestion from the WAC committee meeting. They are as follows:

1) The answer to question 4 on each proposal should read “yes”. We established that your course as designed does require multiple drafts in the form of, among other practices, peer editing.

2) Each syllabus should have a clear statement that reflects the use of peer editing.

3) The WI statement on the syllabus for NURS 4904 should match the proposal.

4) Under Course Objectives, the statement should read “Upon completion of this course, the student will be able to write to”.

Your request will be processes at the March Faculty Senate Meeting. If you should require any further information please contact me at 252-737-4366 or garzah@ecu.edu.

Sincerely,

Hector Garza
