Department of Public Health Grand Rounds
“Centers for Disease Control and Prevention: Efforts towards Building National Environmental Public Health Surveillance Network”
Gregory Kearney, DrPH, MPH
Epidemiologist
Centers for Disease Control and Prevention
National Center for Environmental Health
March 31st, 2011
5:30-6:30 pm
Health Sciences Building
Room 1410

Objectives:

- Learn how the CDC Environmental Public Health Tracking program was developed and how information technology and public health play important roles in disease surveillance.
- Identify participating grantees, partners, key partners and contributions that are helping build the Tracking Network into an important environmental public health tool.
- Recognize how health, exposure, and environmental hazards data are being collected and used for public health actions.
