WELCOME TO TEACHER EDUCATION:

The preparation of school professionals is a complex process. Prospective educators must acquire a body of general knowledge, professional knowledge and content specific knowledge. Education professionals must also develop skills and dispositions necessary for working effectively with diverse students and adults. A combination of classroom work and laboratory experiences has proven to be the most effective framework for accommodating this combination of theory and practice.

In an effort to develop this kind of functioning program for prospective educators, Teacher Education at East Carolina University provides opportunities for candidates to learn and evaluate theories and principles of sound educational practice. Preparation in the university setting is augmented by the collaboration with classroom teachers and other professionals who guide these prospective educators through many hours of practical application in real world settings. Without this partnership of university and local school personnel, a critical dimension of the teacher education program would be lost.

We are glad to have you as a candidate in teacher education. This handbook is designed to assist you as you progress through the various steps which lead to your licensure as a professional in education. PLEASE READ THIS ENTIRE HANDBOOK CAREFULLY.

It is important that you follow the procedures outlined in this how-to manual. Please note specifically the schedules and processes for submitting various applications and/or report forms.

Although your advisor, along with other faculty and staff members will help you in any way possible, YOU ARE RESPONSIBLE for meeting the requirements associated with the teacher education program. Use this handbook to assist you in meeting your goals.

Write down the important dates as you progress, step-by-step, through teacher education. Space has been provided to the left of each procedure to write the date of completion as you move along. We hope you have an enriching, positive growth experience as you progress toward your goal of becoming an education professional. Again, welcome to teacher education.

With best wishes for your success,

Vivian Martin Covington, Director
Office of Teacher Education
