MSSS Core Courses

SECS 6000 Security Studies Foundations
A. Cook DE [81787]

This course will introduce students to the major concepts and arguments in Security Studies. It will give the students the theoretical background they need to succeed in the program and a basic understanding of the diversity of threats faced domestically and in the international system.

SECS 6250 Policy and Practice of Security
J. Roshandel DE [81789]

This course aims to provide a comprehensive and advanced understanding of the theory and practice of domestic and international security since World War II. It is basically focused on the six dimensions of national security: socio-cultural, political, economic, technological, and military.

SECS 6300 Research Methods for Security Studies
M. Olson Lounsbery DE [81796]

Undergraduate course in statistics or consent of instructor. Basic statistical methods and their applications in security studies.
Area of Emphasis in International Security Courses

HIST 6210 War and Society
Palmer DE [82073]

Interrelationship between society and warfare from the dawn of civilization to the present.

POLS 6425 War, Peace, and Security in the Middle East
J. Roshandel DE [80157]

An integrated study of international politics/security studies with special focus on issues directly related to peace and security in the Middle East.

SECS 6260 Intelligence and National Security
A. Krishnan [81788]

This course introduces students to the theory and practice of intelligence. The seminar covers the practice of intelligence and clandestine activity in the 20th and early 21st century with particular reference to US, British, and Soviet/Russian intelligence services. The students will have the opportunity to study and discuss the fundamental issues and challenges facing intelligence services and democracies around the world.
Area of Emphasis in Homeland Security Policy Courses

EHST 6010 Fundamentals of Environmental Health
T. Kelley DE [81166]
Effects of environment on human health. Focuses on rural environment. Consideration given to water supply and wastewater disposal, water quality, solid and hazardous wastes, air quality, occupational health and safety, food protection, and vector control.

PADM 6170 Intergovernmental / Interagency Relations
C. Scavo DE [81810]
Patterns of relations between officials of various US governmental units and agencies.

SECS 6260 Intelligence and National Security
A. Krishnan [81788]
This course introduces students to the theory and practice of intelligence. The seminar covers the practice of intelligence and clandestine activity in the 20th and early 21st century with particular reference to US, British, and Soviet/Russian intelligence services. The students will have the opportunity to study and discuss the fundamental issues and challenges facing intelligence services and democracies around the world.
Fall 2017 Courses
Security Studies
Masters and Certificate
