GEOGRAPHIC INFORMATION SCIENCE & TECHNOLOGY
FIRST SEMESTER COURSE OPTIONS

IMPORTANT: The schedule you create now through PIER is a first draft. Advisors will help you finalize your schedule when you attend New Student Orientation this summer. Schedule changes can be made now through the first week of the fall semester. Courses fill up quickly, so begin registering for classes as soon as possible. If you wait until New Student Orientation, your course options will be limited.

If you are bringing in transfer credits (e.g. EARLY COLLEGE or DUAL ENROLLMENT credits) you must submit a FINAL OFFICIAL transcript from your community college/university in addition to your official high school transcripts to the ECU Undergraduate Admissions Office. ECU can NOT accept college credits from your high school transcripts. Please bring a second copy of your COLLEGE (not high school) transcripts to New Student Orientation for your advisor.

CHOOSE YOUR FALL COURSES: To stay on track to graduate in four years, plan to register for a 15-16 semester hour schedule every fall and spring semester. To be full-time for tuition purposes, register for at least 12 semester hours.

Step 1: Click HERE to open a step-by-step, screenshot tutorial on how to register for classes in Banner Self Service.

Step 2: Register for PRIORITY course(s) in your major. If courses are full, please move on to Step 3 and continue registering for courses. You can continue to check for open seats in your priority course(s) up until the first week of the fall semester.

| Geography      | **GEOG 2410: Fundamentals of Geographic Information Science**  
You should try and register for this course your first semester however, you’ll still be on track if you take this course during your second semester. |

Ideally, you should be registered for a math course.

Click HERE for math placement information. Students can register for the highest-level course their test scores allow but may choose to start in a lower level course if they wish. **DO NOT take MATH 1050**

Additional Information:

AP CREDIT for Calculus
If you scored a 3, 4, or 5 on the Calculus AB or BC Test, you will receive credit for either MATH 2171 or both MATH 2171 and MATH 2172; HOWEVER, we will not receive AP scores until mid-July. Therefore, we ask that you use the SAT or ACT criteria above to register for the appropriate math class just as a placeholder. For a list of all AP scores and ECU credit see Placement Credit.

TRANSFER CREDIT
If you are bringing in transfer credit (example: from a community college) for college algebra or calculus, do not worry about adding a math to your schedule. You can discuss this with your advisor during New Student Orientation.

Step 3: In addition to the courses listed in Step 2, complete your schedule by registering for additional courses from the options below. Remember to register for at least 12 semester hours of courses for tuition and financial aid purposes.
