SOFTWARE ENGINEERING (SENG)
FIRST SEMESTER COURSE OPTIONS

IMPORTANT: The schedule you create now through PIER is a first draft. Advisors will help you finalize your schedule when you attend New Student Orientation this summer. Please note: Schedule changes can be made now through the first week of the fall semester. Courses fill up quickly so begin registering for classes as soon as possible. If you wait until New Student Orientation to begin the registration process, your course options will be limited.
*If you are bringing in college credit – AP or credit from a community college – please make sure you have that information with you at orientation, so schedule changes can be made if necessary*

To be eligible to declare into the SENG major, students must be eligible for MATH 1065: College Algebra (SAT Math Score of 570 OR an ACT Math Score of 23). Students who don’t currently meet the requirements may spend up to two semesters as a Software Engineering-Intended student. If students are unsure of eligibility, they may contact cetadvising@ecu.edu with Banner ID. Students should follow the course recommendations below based on eligibility to declare into the major.

CHOOSE YOUR FALL COURSES: To stay on track to graduate in four years, plan to register for a 15-16 semester hour schedule every fall and spring semester. To be full-time for tuition purposes register for at least 12 semester hours.

Step 1: Click HERE to open a step-by-step, screenshot tutorial on how to register for classes in Banner Self Service.

Step 2: Register for PRIORITY course(s) in your major. If courses are full please move on to Step 3 and continue to check for open seats in your priority course(s) up until you attend New Student Orientation.
