Dr. Schmidt introduced himself and presented his package.

1. Summary of Request
2. Establishment of New Courses (*Level I*)
ADED 4501
ADED 4502

Questions about Package:

- Does 4502 need a prerequisite of 4501?
- If the courses are specific to the honors college, should there be mention of this?
- Please adjust the contact hour range to reflect the range in credits.
- For future thought : would students benefit from either of the courses being designated Writing Intensive (WI)?

Motion to postpone a vote on the proposal until the January 13th meeting made by Cindy Bellacero. Deb Jordan seconded the motion. All unanimously supported the motion.

(Stacy Weiss)**

1. Multidisciplinary Concentrations

Discussion concerning how multidisciplinary concentrations will appear in the course catalog.

- Advantages to concentrations appearing on their own page: simpler presentation makes it easier for students to understand requirements and course offerings; more visibility for the concentration.
- Disadvantages to concentration appearing on their own page: potential for students to mistakenly think that the name of the concentration will appear on their degree when in fact only the name of the multidisciplinary program appears; this goes against established precedent in Music and Foreign Languages, where the concentrations are listed on the same page as the umbrella degree; difficulties in implementing this change with the current catalog software system.
