Guests: Amy Bissette, Maryann Jenkins

Committee Chair Tom Durham called the meeting to order at 3:00 p.m. The minutes of the April meeting were approved as presented.

The committee granted a student’s request that the Mathematics requirement be waived, based on the specific facts of her case. It denied a request for either late drops or a medical withdrawal, as well as two requests for medical drops of selected classes. It also denied a request for late drops of selected classes from Fall 2000 and Spring 2001 by one student and for the removal of Fall 2002 grades by another student. The committee granted a request by a transfer student to grade replace a 1000-level course taken at ECU, even though a higher-level course had been taken at the original college. In one appeal, the student made multiple requests. The committee granted the request to grade replace a 1000-level course, but denied the student’s request to grade replace a 3000-level course or to withdraw from the course.

The committee heard one financial aid appeal. It approved the student’s request for the extension of financial aid for the two summer sessions. If the student receives a 2.5 or better average in 12 hours of CSCI classes during these sessions, he will be approved for an extension of aid for fall semester.

The committee’s next meeting will be Wednesday, July 14, 2004, in Room 142, Rawl Annex.

There being no further business, the meeting was adjourned.

Respectfully submitted,

Jan Lewis, Secretary
