COMMITTEE: Unit Code Screening
MEETING DATE: April 7, 1995
PERSON PRESIDING: Bill Grossnicking, Chair

MEETING ACTION:
The Committee decided that for now criteria for promotion and tenure should be included in codes. The Faculty Governance Committee is considering whether the criteria or reference to how criteria are developed and approved should be in codes.

Marshall moved approval of the March 31 minutes and the Committee approved them.

The Committee reviewed the code of the Department of Sociology with Caston and Garrison, the representatives from that department. Grossnicking moved and Johnson seconded that the code be returned to the department for revision. The motion passed.

The revised code of the School of Allied Health has been received and reviewed by several committee members. Kares moved approval of the code, Johnson seconded, and the motion passed.

The Committee began review of the code of the Department of Communications. Review of this code will continue at the next meeting.

The Committee agreed that for the first review of a code, representatives from the unit would not be invited to the meeting.

Artemis C. Kares, Secretary
