C. Ron Mitchelson, Chair of the [Program Prioritization Committee](#) (PPC)

Discussion on the [Reorganization White Paper](#) and remaining [timeline](#) of activities.

This document contains a summary of existing academic structural elements at ECU, i.e., departments, schools, colleges, and divisions. It also includes a set of possible change menus specified at three levels: divisional, collegiate, and departmental. This White Paper is authored by the Program Prioritization Committee (PPC) as part of its charge from Chancellor Ballard issued in May 2011. Campus reaction to these possible elements of structural change is sought (campus electronic survey, college forums, Faculty Senate) prior to designing any integrated change scenarios. Faculty and staff within the divisions of Academic Affairs, Health Sciences, and Research and Graduate Studies will receive an e-mail invitation to participate in the survey by the end of February. Please be on the look-out for that invitation. A second document (due out by March 30) will highlight possible restructuring scenarios, including the existing structure. That document will form the basis of continued feedback and development of a final recommendation to the Chancellor that is due no later than April 30, 2012.

D. University Budget Committee, Todd Fraley  
Report on Budget Implications.

E. Discussion on Program Prioritization Committee's *Reorganization White Paper*.
