Provide a sheet for each faculty member who will be actively engaged in delivering the proposed program. To facilitate this process, the APD Faculty Information Template is available on the Sedona website. The report should be downloaded, saved as MSWord file, and revised to include additional information requested below. (The publications query for the template is set for a five-year period. To extend that parameter, or for other Sedona questions, please contact Marcia Rouse.)

Faculty Information sheets are to be updated at each step of the program planning process.
