Subject: Occupational Therapy Changes in COurse Offerings

Dear Dr Johnson, I wanted to inform you that the Occupational Therapy in communication with the College of Education is changing its cross –listed course listing with the Assistive Technology Graduate Certificate. Currently there exists a requirement for access to these courses OCCT 6701, OCCT 6702, and OCCT 6703. These course will remain an option and available to your students via SPED 6701, SPED 6702, and SPED 6703. This will be important to note and when your student advisors talk with the students that they refer them to the right course and department for enrollment.
