At the behest of the University of North Carolina System, the Education Policy Initiative at Carolina (EPIC) and Public Impact are conducting an evaluation of the UNC Laboratory Schools. This study will assess the operation of Laboratory Schools and how they benefit student learning and development. Hearing the perspectives of Laboratory School parents and families is a VITAL part of this evaluation effort.

As such, we have partnered with Tripod Education Partners to create and administer the UNC Laboratory School Family Survey. This survey asks parents/caregivers with a child attending a UNC Laboratory School to answer a series of survey items regarding their satisfaction with the school and its operations.

Your participation in this survey is voluntary and all of your responses will be kept confidential. This is an opportunity to provide feedback about the successes and challenges of your child’s school that can benefit its future operation and the operation of other UNC Laboratory Schools.

To complete the UNC Laboratory School Family Survey, please visit the online link shown below.

If you have any questions regarding this survey, you may contact Dr. Kevin Bastian at kbastian@email.unc.edu.

We thank you in advance for your time and thoughtfulness in completing this survey!
