The Board of Governors shall select eight constituent institutions with quality educator preparation programs as demonstrated by the annual performance measures reported by the constituent institutions in accordance with G.S. 115C-296.13.

(b) The mission of a laboratory school shall be to improve student performance in local school administrative units with low-performing schools by providing an enhanced education program for students residing in those units and to provide exposure and training for teachers and principals to successfully address challenges existing in high-needs school settings. A laboratory school shall provide an opportunity for research, demonstration, student support, and expansion of the teaching experience and evaluation regarding management, teaching, and learning.

(c) Each laboratory school shall expand student opportunities for educational success through high-quality instructional programming and innovative instruction and research by using the resources available to the constituent institution. Each constituent institution operating a laboratory school shall incorporate best practices gained from State initiatives focused on
leadership development for both teachers and principals in low-performing schools and local
school administrative units.

(d) Except as otherwise provided in this Article, a laboratory school is exempt from
statutes and rules applicable to a local board of education or local school administrative unit.

schools in local school administrative units that meet the minimum threshold for the number of
low-performing schools located in the units under G.S. 116-239.6(4). The plan shall include a
geospatially diverse distribution of the lab schools throughout the State and a maximum of one
lab school located in a qualifying local school administrative unit. The Board of Governors shall
update the plan as necessary to reflect any changes to the status of a constituent institution
operating a lab school and the status of qualifying local school administrative units at the end of
the term of operation of a lab school. A constituent institution shall not adopt a resolution to create
a lab school under this section prior to receiving approval from the Board of Governors on the
location of the lab school. At least 90 days prior to implementation, the Board of Governors shall
submit the plan and any revisions to the plan to the Joint Legislative Commission on
Governmental Operations.

(b) Resolution to Create a Lab School. – The board of trustees of a constituent institution

G.S. 115C-105.37, the resolution may be renewed by the constituent institution
at the end of the term for an additional five years. If the lab school is no longer
located in a qualifying local school administrative unit at the end of five years, the board of trustees shall notify the Board of Governors to request consultation on determining the location of creating a new lab school in accordance with subsection (a) of this section and the provisions of this Article.

If the number of applications from other eligible students exceeds the capacity of a program, class, grade level, or building, those students shall be accepted by lot. Once enrolled, students are not required to reapply in subsequent enrollment periods.

(d) Notwithstanding any law to the contrary, a lab school may refuse admission to any student who has been expelled or suspended from a public school under G.S. 115C-390.5 through G.S. 115C-390.11 until the period of suspension or expulsion has expired.

For the initial year of the lab school's operation, the local school administrative unit may require that the request for a leave of absence be made up to 45 days before the teacher would otherwise have to report for duty. After the initial year of the lab school's operation, the local school administrative unit may require that the request for a leave of absence be made up to 90 days before the teacher would otherwise have to report for duty.

A local board of education is not required to grant a request for a leave of absence or a request to extend or renew a leave of absence for a teacher who previously has received a leave of absence from that local board under this subdivision. A teacher who has career status under G.S. 115C-325 prior to receiving a leave of absence to teach at the lab school may return to a public school in the local school administrative unit with career status at the end of the leave of absence or upon the end of employment at the lab school if an appropriate position is available. SECTION 11.6.(c) G.S. 115C-83.15 reads as rewritten:

"§ 115C-83.15. School achievement, growth, performance scores, and grades.
... Calculation of the School Achievement Score. – In calculating the overall school achievement score earned by schools, the State Board of Education shall total the sum of points earned by a school on all of the following indicators that are measured for that school:

1. One point for each percent of students who score at or above proficient on annual assessments for mathematics in grades three through eight.
2. One point for each percent of students who score at or above proficient on annual assessments for reading in grades three through eight.
3. One point for each percent of students who score at or above proficient on annual assessments for science in grades five and eight.
4. One point for each percent of students who score at or above proficient on the Algebra I or Integrated Math I end-of-course test.
5. One point for each percent of students who score at or above proficient on the English II end-of-course test.
6. One point for each percent of students who score at or above proficient on the Biology end-of-course test.
7. One point for each percent of students who complete Algebra II or Integrated Math III with a passing grade.
8. One point for each percent of students who achieve the minimum score required for admission into a constituent institution of The University of North Carolina on a nationally normed test of college readiness.
9. One point for each percent of students enrolled in Career and Technical Education courses who meet the standard when scoring at Silver, Gold, or Platinum levels on a nationally normed test of workplace readiness.
10. One point for each percent of students who graduate within four years of entering high school.

In calculating the overall school achievement score earned by schools, the State Board of Education shall (i) use a composite approach to weight the achievement elements based on the number of students measured by any given achievement element and (ii) proportionally adjust the scale to account for the absence of a school achievement element for award of scores to a school that does not have a measure of one of the school achievement elements annually assessed for the grades taught at that school. The overall school achievement score shall be translated to a 100-point scale and used for school reporting purposes as provided in G.S. 115C-12(9)c1., 115C-218.65, and 115C-238.66.

Calculation of the School Growth Score. – Using EVAAS, the State Board shall calculate the overall growth score earned by schools. In calculating the total growth score earned by schools, the State Board of Education shall weight student growth on the achievement indicators as provided in subsection (b) of this section that have available growth values. The numerical values used to determine whether a school has met, exceeded, or has not met expected growth shall be translated to a 100-point scale and used for school reporting purposes as provided in G.S. 115C-12(9)c1., 115C-218.65, and 115C-238.66.

Calculation of the School Performance Scores and Grades. – The State Board of Education shall use EVAAS to calculate the school performance score by adding the school achievement score, as provided in subsection (b) of this section, and the school growth score, as provided in subsection (c) of this section, earned by a school. The school achievement score shall account for eighty percent (80%), and the school growth score shall account for twenty percent (20%) of the total sum. If a school has met expected growth and inclusion of the school's growth score reduces the school's performance score and grade, a school may choose to use the school achievement score solely to calculate the performance score and grade. For all schools, the total school performance score shall be converted to a 100-point scale and used to determine a school performance grade based on the following scale:
A school performance score of at least 90 is equivalent to an overall school performance grade of A.
A school performance score of at least 80 is equivalent to an overall school performance grade of B.
A school performance score of at least 70 is equivalent to an overall school performance grade of C.
A school performance score of at least 60 is equivalent to an overall school performance grade of D.
A school performance score of less than 60 points is equivalent to an overall school performance grade of F.
