Description:

Instructions:

□ One Color: $50
□ Two Color: $100
□ Full Color X: $150

Our paper is printed using CMYK printing. Color pricing is dependent upon the color(s) requested. One color is denoted as any shade of blue, yellow or magenta, plus the use of black. A two-color ad is defined as any color that can be formed by combining blue, yellow or magenta, such as purple, orange and green. Any color combinations require a full-color charge. PMS colors will be matched using process colors as closely as possible. We will make every effort for accurate page registration and color matching, but no guarantees can be made.

This agreement between the undersigned and The East Carolinian is effective upon approval by the Media Accountant. Failure to make the information on this form conform to current advertising terms, conditions and rates is considered a clerical error and publication is made and charged for by the terms of the current rate card. This agreement covers advertising to run in the designated issues. If the advertiser is to be billed, the undersigned advertiser must have an approved credit application on file.
